

Ashley Marrin

Ashley Marrin is the Chief Executive Officer at Bret-Mar Landscape Inc, a family design build business. She grew up in the landscape industry and studied Landscape Architecture and Business at South Dakota State University. After graduating in 2011 during a tough time for the landscape industry, she joined her family's established landscape business. She began working alongside her mother, Sharon, doing design and sales. While her love for design and horticulture remains, Ashley began taking over the reins on the numbers and management side of the business. She now manages the family business with her brother, Adam, and will continue ahead as the second generation.

Ashley is on the Board of Directors and Vice President for the Illinois Landscape Contractors Association (ILCA). Outside of the landscape industry, Ashley enjoys her dogs, hiking, fishing, and competing on her horse Stella in hunter jumper competitions.
