

Landscape Illinois Tree List

The following list of trees is intended to assist buyers in their selection and purchase process. The list was prepared and reviewed by Illinois certified nurseries that are members of Landscape Illinois. The list is composed of trees commonly grown by local nurseries, and it will be subject to periodic review and revision as new varieties become available to producers. Not every genus or cultivar is reflected in this list, but rather the most common ones grown in nurseries to date.

Buyers are encouraged to contact growers directly for assistance with selecting the appropriate trees for their planting projects. To find a nursery, visit <https://landscapeillinois.org/member-directory/>
