

Kila Harwick

Green Soils Management

Kila has over 17 years of Business Development experience in the construction and manufacturing industries with the last 5 years at Green Soils Management. An IEPA permitted facility, Green Soils has given Kila the opportunity to help eliminate yard waste from going to the landfills by being composted and then sold to landscape designers, architects, and general contractors in both the residential and commercial markets.

Currently, Kila serves on the award winning (ILCA's own) Women's Networking Group Committee and is a moderator for its Mentorship Program. She also serves on the Board of Directors for the Illinois Food Scrap Coalition where she is also Chair of their Compost Market and Development Committee. Additionally, she is a member of the Board of Directors for the Association of Subcontractors and its Affiliates where she received the Outstanding Young Professional award in 2001.

In her spare time, Kila likes to spend time with her husband, two children, and black lab. She is a sun-worshiper, avid reader and podcast enthusiast.
