IDPH CONTINUING EDUCATION COURSE

MODERN IRRIGATION MANAGEMENT: TECHNOLOGY, WATER EFFICIENCY & BUSINESS GROWTH

Two Class Locations & Dates to Choose From:

DEC 3, 2026

Building & Fire Code Academy
2420 Vantage Drive
Elgin, IL 60124

Registration closes November 30, 2026

JAN 22, 2027

The Oaks Rec Center
10847 W. La Porte Rd.
Mokena, IL 60448

Registration closes January 15, 2027

Both classes will run 9 A.M. - 1 P.M. Please arrive 15 minutes early for registration.

Hour 1
State of the Irrigation Industry: Audience Participation Required. Through a live anonymous text message survey, participants will benchmark their irrigation businesses against industry peers. Attendees will examine current trends affecting irrigation contractors, including labor, pricing, water management services, technology, adoption, training, and profitability.

Hour 2
Control the Water. Control the Profit.
This session explores how irrigation contractors are transforming traditional service departments into profitable water management businesses through leadership, training, accountability and connected irrigation technology.

Hour 3
Doing Irrigation Right: Design Principles That Improve Performance
This technical irrigation session focuses on system design best practices that improve distribution uniformity, efficiency and long-term irrigation performance.

Hour 4
Digital Irrigation Management: Software, Design Tools and Connected Platforms
Technology continues to reshape how irrigation systems are designed, managed, services and sold. This session provides an overview of digital irrigation tools and software platforms and demonstrates practical field applications for irrigation contractors.

4 Hour Class

$50 to Attend

4 CEU Credit Hours*
